Why understanding AI is “non-negotiable” for insurers

Out of the catalogue of technologies that have the potential to affect the insurance industry, one expert says that artificial intelligence is on track to have the most significant impact in the coming year. In fact, insurers' investments in AI are increasing on a year-over-year basis, and this trend is set to continue into 2019.

MDRT: Seek the uncomfortable zone to overcome barriers

The world is changing fast. Our competition is always getting better. We have to do more than just keep up. We have to keep improving. Are you comfortable with where you are in your business? It's OK to have angst. You have to be willing to go into that uncomfortable zone before you can improve.
