

Dear Friends, Colleagues, Affiliates and Customers,

After almost three years of continuous presence with the "Oporon Syllogi" in Greece, we go on to an English version under the title "Harvest Collection" for our friends and clients living abroad.

This publication will be a bit different on issues from that of Greece, as we will try to cover international news as we perceive them by our side.

We are trying to get close to you and sharing anything we think will spark interest. -->

<--The Greek version won its readers and continues, listening to ideas, looking ahead.

We want to succeed with you!!

So, do not hesitate to contact us, to send your proposals or to become co-editors with the look at the future together!

Let's getting started with you allies!

MetLife

Navigating life together

MetLife earns Top Spot in Industry

What does the US - EU insurance deal mean?

The European Union and the US

as Best Adoption-Friendly Workplace

MetLife today announced it has ranked #1 in the Insurance Industry on the Dave Thomas Foundation for Adoption's 2017 Best Adoption-Friendly Workplaces List. This is the tenth year in a row MetLife has been recognized for its employee adoption benefits, parental leave policies and flexible work culture.

The European Union and the US had signed an agreement to update international insurance and reinsurance regulations and free up capital for investments – a significant move for the industry on both sides of the pond. But while there has been much talk about the importance of the deal, what does it really mean in practice?
